

Ron,

Just thought that you might like the attached photos and the email chain below. The large photo is of M. "C" (Briggs Cunningham, Jr.) along with his son, Briggs Cunningham III in the driver's seat. The building in the rear is large concrete commercial style garage on the Cunningham family estate in Greens Farm, CT. The garage was used for the race team & other cars. It still is standing as far as I know.

Best regards,

Larry Berman

**Subject:** Cunningham - Porsche 540 America Roadster

Nick,

Thanks for the photo which I haven't seen. As a correction, the car is a Porsche 540 America Roadster Chassis No. 10465.

The photo appears to be taken at the Palm Beach, FL residence of Mr. "C". If you know the photographer, please share

That name so that we can give credit when we add the image to our SmugMug photo section on [www.briggscunningham.com](http://www.briggscunningham.com)

Thanks in advance.

Larry Berman

**Subject: FW: Magazine article**

A few days ago a friend to Racer Dick and mine copied us on a series of emails he was having with a man looking for specific information on early Team Cunningham entries. The above attachments were among the emails. Our friend, who lives in the UK, thought perhaps Dick or I might be of assistance due to Dick being the owner of a pre-Cunningham Cooper FJ. Thought you folks might enjoy these. Ciao.

**Subject:** Magazine article

Attached is a magazine article from Automobilia Resource & a photo relating to my model cars collections that has over 150 pieces.

The model cars are located in my motorsport history library that includes books, magazines, photos & posters, etc.

You may want to visit my hobby website [www.briggscunningham.com](http://www.briggscunningham.com)

Best regards,
